Technical Projects

Media PR and AI Influence on Indian Political Perception

2025

Data-Driven Decision Making, Market Research and Analysis, Content Marketing, MS Office

[🌐 GitHub Repository](#) [🔗 Live Demo](#)

Researched how media, PR, and AI shape political perception among Indian youth via a survey of 70 students and content analysis of 80 posts. As part of a 4-member team, developed the PLIM-AI framework and proposed policy recommendations on AI-content labeling and algorithm audits.

Media Campaign Strategy for AI and IoT Adoption in Precision Agriculture

2026

Market Research and Analysis

[🌐 GitHub Repository](#) [🔗 Live Demo](#)

Researched low AI/IoT adoption (~30%) among Indian farmers despite proven 40% yield gains and 60% chemical reduction. As part of a 5-member team, designed a multi-platform media strategy projected to increase adoption by 20-30%, using desk research and data synthesis.

Problem Solving & Data Structures

[🔗 LeetCode](#)

Building foundational problem-solving and logical thinking skills through Java, practicing core concepts like variables, loops, conditional statements, and basic data types. Working on simple coding exercises to improve algorithmic thinking and understanding of fundamental data structures such as arrays and strings. Currently developing a basic understanding of time complexity while strengthening these fundamentals alongside ongoing Java Full Stack Development training using VS Code.
